### **Short Term Research Career Enhancement Opportunities for Established Veterinarians**

Awards under this Funding Opportunity Announcement (FOA) will provide a short-term, specialized research career opportunity for established veterinarians (DVM, VMD or equivalent) with an interest in comparative medicine and translational research. The term of the award may range from 6-24 months. Awardees are expected to be at the Associate or Full Professor level (or equivalent in a non-academic setting). The focus is to support the research career enhancement for established veterinarian researchers (DVM, VMD or equivalent) using animal models in translational research. The intent of this FOA is to provide grantees with protected time to achieve a shift in the focus of their research direction or to learn new research techniques and/or procedures relevant to their ongoing research projects and to the NCRR mission. This FOA is not intended as a substitute for ongoing research project support.

**Deadline: June 14, 2011**

## **ARTS & CULTURE**

### **Tribeca Film Institute Launches New Media Fund**

The TFI New Media Fund provides funding and support to non-fiction, social issue film projects which go beyond traditional screens – integrating film with content across media platforms, from video games and mobile apps to social networks and interactive websites. We're looking for projects that activate audiences around issues of contemporary social justice and equality around the world and demonstrate the power of cross-platform storytelling and dynamic audience engagement. Grants between \$50,000 and \$100,000 will be awarded to up to eight nonfiction social issue film projects that integrate film with content across newer media platforms; the fund also will provide peer support and expert mentorship for producers.

**Deadline: May 25, 2011**

**Maximum Grant Amount: \$100,000**

**Grant Link:** <http://www.tribecafilminstitute.org/newmedia/about/>

### **Challenge America Fast-Track**

The Challenge America Fast-Track category offers support primarily to small and mid-sized organizations for projects that extend the reach of the arts to underserved populations -- those whose opportunities to experience the arts are limited by geography, ethnicity, economics, or disability. Age alone (e.g., youth, seniors) does not qualify a group as underserved; at least one of the underserved characteristics noted above also must be present. Grants are available for professional arts programming and for projects that emphasize the potential of the arts in community development. This category encourages and supports the following two outcomes: Engagement: Public engagement with diverse and excellent art and Livability: The strengthening of communities through the arts.

**Deadline: May 26, 2011**

**Maximum Grant Amount: \$10,000**

**Grant Link:** <http://www.arts.gov/grants/apply/GAP12/Challenge.html>

### **Cinereach Invites Letters of Inquiry for Film Production Grant Program**

Cinereach supports feature-length nonfiction and fiction films that are at the intersection of engaging storytelling, visual artistry, and vital subject matter. Cinereach seeks to support films that utilize cinematic artistry and storytelling to provide insight and spark dialogue, challenge prejudice and advance human rights, discover humanity and hope, and foster global commu-

nity.

**Deadline: June 1, 2011 (LOI)**

**Maximum Grant Amount: \$50,000**

**Grant Link:** <http://www.cinereach.org/grants/granting-program-guidelines>

### **Digitizing Historical Records**

The National Historical Publications and Records Commission seeks proposals that use cost-effective methods to digitize nationally significant historical record collections and make the digital versions freely available online. Projects must make use of existing holdings of historical repositories and consist of entire collections or series. The materials should already be available to the public at the archives and described so that projects can re-use existing information to serve as metadata for the digitized collection.

**Deadline: June 9, 2011**

**Grant Link:** <http://www.archives.gov/nhprc/announcement/digitizing.html>

### **Publishing Historical Records**

The National Historical Publications and Records Commission seek proposals to publish historical records of national significance. Projects may focus on the papers of major figures from American life or cover broad historical movements in politics, military, business, social reform, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. Grants are awarded for collecting, describing, preserving, compiling, editing, and publishing documentary source materials.

**Deadline: June 9, 2011**

**Maximum Grant Amount: \$250,000**

**Grant Link:** <http://www.archives.gov/nhprc/announcement/publishing.html>

### **Preservation and Access Education and Training Grants**

The Preservation and Access Education and Training program is central to NEH's efforts to preserve and establish access to cultural heritage collections. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture collections, electronic records, and digital objects. The challenge of preserving and making accessible such large and diverse holdings is enormous and the need for knowledgeable staff is significant and ongoing. Preservation and Access Education and Training grants help the staff of cultural institutions, large and small, obtain the knowledge and skills needed to serve as effective stewards of humanities collections. Grants also support educational programs that prepare the next generation of conservators and preservation professionals, as well as projects that introduce the staff of cultural institutions to new information and advances in preservation and access practices.

**Deadline: June 30, 2011**

**Grant Link:** <http://www.neh.gov/grants/guidelines/pet.html>

### **Center for Craft, Creativity and Design—Craft Research Fund - Project Grants**

To support innovative research on artistic and critical issues in craft theory and history; To explore the inter-relationship among craft, art, design and contemporary

culture; To foster new cross-disciplinary approaches to scholarship in the craft field in the United States; To advance investigation of neglected questions on craft history and criticism in the United States. Proposals are welcome from academic researchers, independent scholars, and museum curators. General overhead (indirect administrative expenses) is not eligible for university-based projects. No capital equipment purchases are eligible for support. Proposals must identify intended audiences and/or publishing opportunities. These may include stand-alone publications, peer-reviewed journals, papers presented at a scholarly conference, university colloquium or public forum, or a museum catalogue.

**Deadline: July 1, 2011**

**Maximum Grant Amount: \$15,000**

### **Wyeth Foundation for American Art**

The Wyeth Foundation for American Art supports the publication of books on American art through the Wyeth Foundation for American Art Publication Grant, administered by CAA. For purposes of this grant program, "American art" is defined as art created in the United States, Canada, and Mexico prior to 1970. Application is by the publisher, not the author. Applications are considered only for book-length scholarly manuscripts in the history of American art that are under contract for publication. Awards are open to publishers of all nations; authors need not live or work in the United States. Commercial, university, and museum presses are all eligible. Applicant authors and presses must be institutional CAA members, although on a case-by-case basis CAA may waive that requirement upon request for non-US-based independent presses. Excluded from consideration are excavation or other technical reports, articles, previously published works (including collections of previously published essays), and congress proceedings. Museum exhibition or collection catalogues containing substantial scholarship are eligible. High scholarly and intellectual merit is the sine qua non for an award; however, the jury is also attentive to the following criteria:

- Topics on art before 1970
  - Topics with a naturally small market or unusually high expenses
  - Works by disadvantaged scholars, including those at the earlier stages of a career, or by younger scholars or curators; or issued by smaller museums; or by or about underserved constituencies
  - Books that break new ground, contribute new scholarship, or publish important primary-source material
- Beautiful books that increase the audience for American art

**Deadline: October 1, 2011**

**Maximum Grant Amount: \$4,000,000**

#### **Fender Music Foundation**

The Fender Music Foundation accepts information from 501c3 and governmental grant candidates. Qualifying applicants are established, ongoing and sustainable music programs in the United States, which provide music instruction for people of any age who would not otherwise have the opportunity to make music. The intent of the program must be music instruction, not music appreciation or entertainment, and the participants/students cannot be professional or career musicians. Almost all of the selected programs, to which we award grants, fall into the following categories: In-school music classes, in which the students make music; After-school music programs that are not run by the school; Music therapy programs, where participants make the music.

### **NEA Arts in Media, FY2012**

The Arts Endowment's support of a project may start on May 1, 2012, or any time thereafter. Through this category, the National Endowment for the Arts seeks to make the excel-

lence and diversity of the arts widely available to the American public through every available media platform including television, radio, the Internet, interactive and mobile technologies, digital games, and satellite. By increasing the accessibility and impact of the arts, the Arts Endowment aims to strengthen the creativity of our nation. Grants are available to support the development, production, and national distribution of innovative media projects about the arts (e.g., visual arts, music, dance, literature, design, theater, musical theater, opera, folk & traditional arts, and media arts including film, audio, animation, and digital art) and media projects that can be considered works of art. The NEA is seeking and will give priority to artistically excellent projects that have the potential to reach a significant national audience, through their primary platform, regardless of the size or geographic location of the applicant organization. Only projects of the highest artistic excellence and merit, in both media production and subject matter, will be funded. Projects may include high profile multi-part or single television and radio programs (documentaries and dramatic narratives); media created for theatrical release; performance programs; artistic segments for use within an existing series; multi-part webisodes; installations; and interactive games. Short films, five minutes and under, will only be considered in packages of three or more. Projects may deal with any subject matter or art form, and those targeted to children and youth are welcome. The agency encourages innovative, entertaining, compelling, and artistically crafted media projects that not only increase access to, but also enhance public knowledge and understanding of, the arts. Such projects might be multi-platform or trans-media. They may include the use of radio and television, DVDs, interactive web sites, live streaming, audio- and video-on-demand, podcasts, MP3 files, mobile, or other digital applications including games. Projects may include enhancements such as educational materials and/or foster collaborations with arts organizations, educators, and community groups. Media distribution to schools, libraries, as well as homes, and other substantive public engagement strategies will be given priority. Applications should clearly demonstrate the organization's ability to complete the project in a timely fashion and to achieve national distribution. Further, in order to reach the widest possible audience, this category will give priority to projects that include a well articulated social media strategy.

**Deadline: September 1, 2011**

**Maximum Grant Amount: \$200,000**

### **FedEx Grant Program**

The mission of the FedEx Social Responsibility department is to actively support the communities we serve and to strengthen our global reputation through strategic investment of our people, resources and network. FedEx is especially interested in supporting nonprofit organizations that request: 5% or less of a total project budget; contingency grants; or seed monies with the thought that other sources will contribute matching amounts. Organizations must show evidence of competent management, low administrative/fundraising expense ratios, and a nondiscriminatory program benefiting broad segments of the community. We heavily weigh the potential involvement of our employees in groups that seek our financial support. We have three core focus areas that our investments can impact in important and meaningful ways: Emergency and Disaster Relief, Child Pedestrian Safety, and Environmental Sustainability. FedEx has Corporate Neighbor Teams which serve as community service ambassadors. These teams work with many nonprofit organizations and act as a clearinghouse for requests for manpower assistance. They serve the following areas: Arts, Children/Youth, United Way, Adopt-A-School, Junior Achievement, Hearing-Impaired and Civic Affairs. Nonprofits needing volunteers should submit a written request.

### **Planning and Local Technical Assistance Programs Opportunity—FY 2011**

The Economic Development Administration's (EDA) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. In implementing this mission pursuant to the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. § 3121 et seq.) (PWEDA), EDA advances economic growth by assisting communities and regions experiencing chronic high unemployment and low per capita income to create an environment that fosters innovation, promotes entrepreneurship, and attracts increased private capital investment. Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance Programs. These programs will help communities develop the planning and technical expertise to support communities and regions in their comprehensive, entrepreneurial, and innovation-based economic development efforts. Resulting in increased private investment and higher-skill, higher-wage jobs in areas experiencing substantial and persistent economic distress, these programs are designed to enhance the competitiveness of regions.

### **Earth Sciences: Instrumentation and Facilities**

The Instrumentation and Facilities Program in the Division of Earth Sciences (EAR/IF) supports meritorious requests for infrastructure that promotes research and education in areas supported by the. EAR/IF will consider proposals for: 1) Acquisition or Upgrade of Research Equipment that will advance laboratory and field investigations, and student research training opportunities in the Earth sciences. The maximum request is \$1,000,000. The maximum request for upgrade of research group computing facilities is \$75,000; 2) Development of New Instrumentation, Analytical Techniques or Software that will extend current research and research training capabilities in the Earth sciences. The maximum request is \$1,000,000; 3) Support of National or Regional Multi-User Facilities that will make complex and expensive instruments or systems of instruments broadly available to the Earth sciences research and student communities; 4) Support for Early Career Investigators to facilitate expedient operation of new research infrastructure proposed by the next generation of leaders in the Earth Sciences. This opportunity allows for submission of a proposal for Acquisition or Upgrade of Research Equipment that includes budget line items associated with support of a new full-time technician who will be dedicated to manage the instrument(s) being requested. Any request for technical support under this opportunity is limited to three years duration. The maximum request is \$1,000,000. Planned research uses of requested instruments, software, and facilities must include basic research on Earth processes SUPPORTED BY THE DIVISION OF EARTH SCIENCES. Support is available through grants or cooperative agreements awarded in response to investigator-initiated proposals. Human resource development and education are expected to be an integral part of all proposals submitted to EAR/IF. Efforts to support participation of underrepresented groups in laboratory and/or field instrument use and training are encouraged. All proposers to EAR/IF are invited to consider Support of Outreach and/or Broadening Participation Activities. Proposals submitted to the EAR/IF Program may request up to \$20,000 for such activities (please refer to Sections V.A Proposal Preparation Instructions and V.B Budgetary Information). Proposals requesting equipment, infrastructure or personnel that will also serve disciplines outside the Earth sciences may be jointly reviewed with other programs within the Foundation. EAR/IF will consider co-funding of projects with other NSF programs and other agencies.

### **Learning Disabilities Foundation of America**

The Learning Disabilities Foundation of America supports the Learning Disabilities Association of America (LDA), whose

goal is to advance the education and general welfare of children and adults with learning disabilities. Applications must be for projects which conform to the mission of the Learning Disabilities Foundation of America by responding to an unmet need in the field of learning disabilities. Funds are granted for charitable, scientific, literary or educational purposes or for the identification, ongoing evaluation and education of and services for children and adults with learning disabilities. With the exception of LDA committed funds, grants will not be made for routine organizational operations or for endowment funds. Examples of project areas that fall within this philosophy:

- Innovative research into the causes, the prevention and/or the alleviation of learning disabilities;
- \* Distinctive public awareness programs to advance public understanding of the needs of persons with learning disabilities;
- \* Innovative programs to advance the competence of persons with learning disabilities, and the support skills of their families, professional advisors, and employers.

### **Education and Interdisciplinary Research**

Supports activities in conjunction with NSF-wide programs such as Faculty Early Career Development (CAREER), Research Experiences for Undergraduates (REU), and programs aimed at women, minorities, and persons with disabilities. Further information about all of these programs and activities is available in the Crosscutting Investment Strategies section of the NSF Guide to Programs. The program also supports activities that seek to improve the education and training of physics students (both undergraduate and graduate), such as curriculum development or physics education research directed towards upper-level or graduate physics courses, and activities that are not included in specific programs elsewhere within NSF. The program supports research at the interface between physics and other disciplines and extending to emerging areas. Broadening activities related to research at the interface with other fields, possibly not normally associated with physics, also may be considered.

### **Advance: Increasing the Participation and Advancement of Women in Academic Science and Engineering Careers**

The goal of the ADVANCE program is to develop systemic approaches to increase the representation and advancement of women in academic science, technology, engineering and mathematics (STEM) careers, thereby contributing to the development of a more diverse science and engineering workforce. ADVANCE focuses on ensuring that women faculty with earned STEM degrees consider academia as a viable and attractive career option. Creative strategies to realize the ADVANCE program goal are sought from women and men. Members of underrepresented minority groups and individuals with disabilities are especially encouraged to apply. Proposals that address the participation and advancement of academic STEM women from underrepresented minority groups and women with disabilities are particularly encouraged. Proposal components that systemically enhance and provide access to international collaborations are encouraged. Proposals from community colleges, primarily undergraduate institutions, minority-serving women's colleges, and institutions primarily serving persons with disabilities are encouraged. In 2011-2012, this program will support the following types of ADVANCE Projects: Institutional Transformation (IT) Institutional Transformation awards are expected to include innovative systemic organizational approaches to transform institutions of higher education in ways that will increase the participation and advancement of women in STEM academic careers.

### **EMPLOYMENT**

#### **H-1B Technical Skills Training Grants**

The Employment and Training Administration (ETA), U.S. Department of Labor (DOL or the Department), announces the availability of approximately \$240 million in funds for an H-1B Technical Skills Training Grants program. This grant program is designed to provide education, training, and job placement assistance in the occupations and industries for which employers are using H-1B visas to hire foreign workers, and the related activities necessary to support such training. H-1B technical skills training grants are financed by a user fee paid by employers to bring foreign workers into the United States under the H-1B nonimmigrant visa program. This technical skills training program was authorized under

Section 414 (c) of the American Competitiveness and Workforce Improvement Act of 1998 (ACWIA), as amended (29 USC 2916a). Grant awards will be made only to the extent that funds are available. The Department will make awards to two types of training grants: those that provide On-the-Job Training (OJT) to all participants and those that use other training strategies. Of the awards granted through this Solicitation, at least \$150 million will be awarded to grantees that provide OJT to all participants. Between the two types of grants awarded (OJT and other training strategies), DOL intends to fund at least \$45 million to applicants proposing to provide training for occupations in the health care industry and at least \$60 million to applicants that serve long-term unemployed individuals. While this Solicitation is open, DOL anticipates that additional funding will accrue for this grant program. Such additional funding may be made available for awards during the second round of funding, depending on the quality of applications received. The Department expects to award approximately 75-100 grants ranging from \$1 million to \$5 million with up to a 48-month period of performance. The Department will award grants to a partnership of private and public sector entities as defined in ACWIA. This partnership must include at least two entities from among the following groups: (1) businesses or business-related nonprofit organizations, such as trade associations; (2) education and training providers, including community colleges and other community-based organizations; and (3) entities involved in administering the workforce investment system established under Title I of the WIA, and economic development agencies.

## **ENVIRONMENT**

### **Strengthening Partnerships, Results, and Innovations in Nutrition Globally (SPRING)**

In support of the USG's increased commitment to nutrition and food security, as demonstrated by the Global Health Initiative and Feed the Future, the United States Agency for International Development seeks to award a five year, \$200 million Cooperative Agreement named Strengthening Partnerships, Results and Innovation in Nutrition Globally. This activity will support USAID in promoting appropriate policies and programs that enhance country nutrition programs to reach vulnerable populations, especially women, infants, and young children. The award is expected to: provide technical assistance to accelerate action on nutrition policies, build the capacity of countries to design, implement and evaluate nutrition programs, build the evidence-base for nutrition, promote effective delivery of a core package of nutrition interventions, and emphasize country-specific approaches to scale up nutrition programs. It is also anticipated that SPRING will facilitate partner coordination and collaboration in countries with other USG activities and with national stakeholders. The authorizing legislation for this Cooperative Agreement is the Foreign Assistance Act of 1961, as Amended, and the award is subject to 22 CFR 226 Administration of Assistance Awards to U.S. Non-Governmental Organizations. The following are applicable for the administration of this award: 22 CFR 226, OMB Circulars and the Standard Provisions for U.S. Nongovernmental Recipients. USAID anticipates that Applicants may

indicate formal arrangements with partner organizations or with sub awardees for implementing this activity in their application.

#### **Healthy Homes Technical Studies**

The overall goal of both the Lead and the Healthy Homes Technical Studies programs is to gain knowledge to improve the efficacy and cost-effectiveness of methods for evaluation and control of lead-based paint and other housing related health and safety hazards. This also supports HUD's Strategic Goal to utilize housing as a platform for improving the quality of life and health outcomes for those living in HUD-assisted and HUD-regulated housing, and the associated policy priority to build inclusive and sustainable communities by improving the health of community residents while reducing the impact of communities on the environment. The overall goals and objectives of the Healthy

Homes (HH) Program is to: (1) Mobilize public and private resources, involving cooperation among all levels of government, the private sector, grassroots community-based organizations, including faith-based organizations, and other non-profit organizations, to develop and implement the most promising, cost-effective methods for identifying and controlling housing-related hazards; and (2) Build local capacity to operate sustainable programs that will continue to prevent, minimize, and control housing-related hazards in low- and very low-income residences when HUD funding is exhausted.

#### **Earthscope**

The EarthScope Program provides a framework for broad, integrated studies across the Earth sciences, including research on fault properties and the earthquake process, strain transfer, magmatic and hydrous fluids in the crust and mantle, plate boundary processes, large-scale continental deformation, continental structure and evolution, and composition and structure of the deep Earth. In addition, EarthScope offers a centralized forum for Earth science education at all levels and an excellent opportunity to develop cyberinfrastructure to integrate, distribute, and analyze diverse data sets. The EarthScope Facility, consisting of the Plate Boundary Observatory (PBO), the San Andreas Fault Observatory at Depth (SAFOD), and the USArray, is a multi-purpose array of instruments and observatories that greatly expands the observational capabilities of the Earth sciences and permits us to advance our understanding of the structure, evolution and dynamics of the North American continent. This Solicitation calls for single or collaborative proposals to conduct scientific research associated with the EarthScope Facility and support activities that further the scientific and educational goals of EarthScope.

#### **FOOD and NUTRITION**

##### **Innovative Food Defense Projects**

Food defense is a term used to describe activities associated with protecting the nation's food supply from intentional contamination. The Food and Drug Administration has adopted 3 broad strategies that encompass its food defense activities: (1) Awareness (Prevention/Preparedness): Increase awareness among federal, state, local, and tribal governments, and the private sector, to better understand where the greatest vulnerabilities lie and develop effective protection/mitigation strategies to shield the food supply from intentional contamination; (2) Response: Develop the capacity for a rapid coordinated response to a food borne terrorist attack; and (3) Recovery: Develop the capacity for a rapid coordinated recovery from a food borne terrorist attack. The specific goal of this program is to generate products that complement, develop, or improve State and local food defense programs which may then applied to national food defense programs.

#### **National Coalition to Enhance STD/HIV Prevention through Promotion of a Holistic Approach to Health and Wellness**

The overall goal of this FOA is to bring together a group of organizations from diverse sectors to enhance STD/HIV prevention by advancing a public health approach to improve sexual health. This effort will include developing a framework and strategies to support relevant national multi-sectoral leadership and to promote effective actions in multiple areas of focus, including but not limited to: health care providers and promoting collaboration and holistic approaches with health care and delivery systems; communication, health education, and marketing professionals and promoting attitudinal, knowledge, behavioral and social change and norms to enhance STD/HIV prevention and foster improved sexual health; policy professionals and promoting effective policy actions; and educational professionals and promoting medically-accurate and evidence-based education and school policies to enhance STD/HIV

prevention by advancing public health approaches to improve sexual health.

#### **Supplements for Rapid HIV Testing - FY 2011**

The Substance Abuse and Mental Health Services Administration (SAMHSA) announces the availability of funds to expand the capacity of Minority AIDS Initiative (MAI) grantees in the Center for Substance Abuse Treatment (CSAT) and Center for Substance Abuse Prevention (CSAP) to provide rapid HIV testing, counseling, and referral to care. The RHT Supplements will promote the principle goals of the MAI which are to improve HIV-related health outcomes for racial and ethnic minority communities disproportionately affected by HIV/AIDS and reduce HIV related health disparities. In addition, the RHT Supplements are aligned with the objectives of the National HIV/AIDS Strategy (NHAS) to: 1) reduce the number of people who become infected with HIV, 2) increase access to care and optimize health outcomes, and 3) reduce HIV-related health disparities. Intensifying HIV prevention efforts with the utilization of rapid HIV testing of individuals with substance use and/or mental disorders is also consistent with the NHAS, given the disproportionately high prevalence of HIV among ethnic and racial minorities. The goals and objectives of the MAI, NHAS, and RHT Supplements are consistent with the goals of the Affordable Care Act (Strategic Initiative #5-Health Reform), which emphasizes the coordination of services for federally funded health service agencies to provide comprehensive care to the needs of vulnerable populations. There is a critical need to increase testing activities among individuals who are at risk for HIV, and especially those who are not aware of their sero-status.

#### **Planning Grants for Expansion of the Comprehensive Community Mental Health Services for Children and their Families**

The Substance Abuse and Mental Health Services Administration's, Center for Mental Health Services is accepting applications for fiscal year (FY) 2011 for Planning Grants for Expansion of the Comprehensive Community Mental Health Services for Children and their Families (System of Care Expansion Planning Grants). The purpose of these grants is to develop a comprehensive strategic plan for improving and expanding services provided by systems of care (SOC) for children and youth with serious emotional disturbances and their families.

#### **Public Health Surveillance for the Prevention of Complications of Bleeding and Clotting Disorders**

The purpose of the program is to provide support and assistance through CDC cooperative agreements for non-research activities for the collection, aggregation and use of data describing the epidemiologic characteristics of people with

bleeding and clotting disorders and the complications of these disorders, in order to monitor health indicators for these populations.

**Deadline: June 2, 2011**

#### **Emergency Countermeasure Dispensing Staffing Plan**

The purpose of the program is to fund a nationally recognized community volunteer and support organization to develop plans to recruit, train, and maintain volunteers. The targeted impact of the FOA is to enhance community resilience and provide another volunteer tool in the community response toolbox. These volunteers would support the state and local public health agencies during a dispensing campaign. The awarded organization should develop an exportable model with transferrable plans and toolkits that can be disseminated to other community organizations for their consideration and use.

#### **HIV/AIDS Surveillance**

The purpose of the supplement to the HIV surveillance program cooperative agreement is to enable state and local health departments funded under FOA PS08-802 HIV/AIDS Surveillance, Part I's Core Surveillance to apply for one or both of the following enhanced activities: Activity I: Laboratory Reporting - This activity will enable funded areas to improve the reporting of HIV-related laboratory data with special emphasis on Western Blot (WB), CD4+ T-lymphocyte (CD4) test and viral load (VL) detection test results from private and public laboratories. This activity may also include enhancing the reporting of other confirmatory, screening, and viral resistance tests. This activity will enable areas to measure, integrate, and evaluate testing initiatives by assessing new diagnoses, characteristics of persons newly testing positive, and linkage to and retention in care. Activity II: Geocoding Data - This activity will enable funded areas to capture, store, analyze, and display spatial data. Geocoded data can be spatially linked to other data sources to enhance understanding of social determinants of health (SDH) affecting communities impacted by HIV. A major use of geocoded HIV surveillance data is in monitoring and analyzing community viral load information and stage of disease at diagnosis. This information is needed for analysis of access/utilization of HIV care services and unmet need. Additionally, this data will assist jurisdictions in targeting and mapping testing sites in relation to need.

#### **Services Grant Program for Residential Treatment for Pregnant and Postpartum Women**

The Substance Abuse and Mental Health Services Admini-

stration (SAMHSA), Center for Substance Abuse Treatment (CSAT) is accepting applications for fiscal year (FY) 2011 for the Services Grant Program for Residential Treatment for Pregnant and Postpartum Women (PPW). The purpose of this program is to expand the availability of comprehensive, residential substance abuse treatment, prevention, and recovery support services for pregnant and postpartum women and their minor children, including services for non-residential family members of both the women and children. This program approaches service delivery from a family-centered perspective, meets the multiple individual needs of the population of focus, and considers the health and well-being of the family members within the context of their families and other important relationships.

**Deadline: June 6, 2011**

#### **Prostate Cancer Health Disparity Training Award - DoD FY11**

The Health Disparity Training Award reflects the PCRP's commitment to resolving disparities in prostate cancer incidence, morbidity, and mortality by preparing young investigators to focus their careers on prostate cancer health disparity research. Applicants for this award must explicitly state how the proposed training program and research project are related to an area of prostate cancer health disparity. Appropriate health disparity areas include, but are not limited to, race and ethnicity, socioeconomic status, access to health care, insurance status, age, geography, and cultural beliefs. The Health Disparity Training Award supports predoctoral and postdoctoral training opportunities focused on prostate cancer health disparity research. These awards primarily provide salary support for the Principal Investigator (PI); the trainee is considered the PI of the proposal. The PI must exhibit strong potential for and commitment to pursuing a career as a prostate cancer health disparity researcher; however, the PI is not required to have previous health disparity or prostate cancer research experience. Applications must include at least one mentor, appropriate to the proposed training and research project, who has experience in prostate cancer health disparity research as demonstrated by a record of funding and publications. The selected mentor(s) should demonstrate a clear commitment to the PI's training and be well qualified to significantly contribute to the development of the PI toward a career in prostate cancer health disparity research. The PI must outline an individualized, prostate cancer-focused training program, which may include coursework, laboratory tech-

niques, conferences, seminars, journal clubs, teaching responsibilities, and/or clinical responsibilities that will provide the PI with experience in key areas relevant to the proposed work and foster the PI's development as a prostate cancer researcher. An environment appropriate to the proposed training and research project must be clearly described. All applications for the Health Disparity Training Award are to be written by the PI, with appropriate direction from the mentor(s). The PCRP seeks applications from the wide spectrum of basic to clinical research, provided they are appropriately focused on an issue of prostate cancer health disparity. In addition, applications (1) should be relevant to at least one of the PCRP focus areas and (2) are encouraged, although not required, to be responsive to one of the PCRP overarching challenges.

### **AREA HEALTH EDUCATION CENTERS POINT OF SERVICE MAINTENANCE AND ENHANCEMENT**

The Area Health Education Center (AHEC) programs consist of interdisciplinary, community-based, primary care training programs wherein academic and community-based leaders work to improve the distribution, diversity, supply, and quality of health care personnel, particularly primary care personnel in the health care services delivery system and more specifically in delivery sites in rural and other underserved areas. This funding opportunity announcement (FOA) solicits applications for a one-year project period for AHEC Infrastructure Development awards and AHEC Point of Service Maintenance and Enhancement awards.

### **Expand Care Coordination through the Use of Health Information Technology in Targeted Areas of Need**

The Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment is accepting applications for fiscal year (FY) 2011 Grants to Expand Care Coordination through the Use of Health Information Technology in Targeted Areas of Need. The purpose of this program is to leverage technology to enhance and/or expand the capacity of substance abuse treatment providers to serve persons in treatment who have been underserved because of lack of access to treatment in their immediate community due to transportation concerns, an inadequate number of substance abuse treatment providers in their community, and/or financial constraints. The use of Health Information Technology (HIT), including web-based services, smart phones, and behavioral health electronic applications (e-apps), will expand and/or enhance the ability of providers to effectively communicate with persons in treatment and to track and manage their health to ensure treatment and services are available where and when needed. Grantees will use technology that will support recovery and resiliency efforts and promote wellness. Both the American Recovery and Reinvestment Act (ARRA) and the Affordable Care Act (ACA) are driving health systems toward the use of information technology for service delivery, quality improvement, cost containment, and increased patient involvement in their health care. The functionality of interoperable Electronic Health Record (EHR) systems, used with tools such as web-based services, messaging systems, smart phones, and e-apps, can connect providers with persons in treatment and link them to services and treatment that are not available through "brick-and-mortar" facilities. Working with their clinicians, and with e-therapy tools, persons in treatment will become active partners in enhancing the effectiveness of their care. By using technology tools that have been adapted or designed to support substance abuse treatment, persons in treatment will have more frequent contact with providers. These technological tools will also complement existing or new EHR systems to create patient-centered treatment that also allows the provider to better monitor client progress and adjust treatment strategies as necessary to result in better health for persons in treatment and more efficient and effective use of resources. Consumer HIT applications also can be important in emergency situations to provide critical health information to medical staff.

### **Innovative Evidence Based Models for Improving the System of Services for CYSHCN**

The purpose of this grant is to replicate innovative evidence-based models that improve services for children and youth with special health care needs (CYSHCN). The Innovative Evidence Based Models for Improving the System of Services for CYSHCN will provide funding to innovative programs in one of the four key areas listed below: 1) Outreach - to engage and empower families and youth in underserved and underrepresented populations. 2) Care coordination - to

enhance coordination of care for families and youth in underserved and underrepresented populations. 3) Blended or braided funding - to improve access to integrated community services or to fill existing gaps. 4) Access to Medical Home - to improve access to a medical home for children and youth, including individuals with special healthcare needs who are transitioning into an adult system of services, and those served by non-traditional providers such as community health centers.

### **NIMHD Health Disparities Research**

The purpose of this Funding Opportunity Announcement (FOA) is to solicit innovative research that can directly and demonstrably contribute to the elimination of health disparities. Research aims may include, but are not limited to, biological mechanisms; behavioral strategies; lifestyle factors; environmental, structural, and economic factors; cultural and family influences; delivery system interventions; medical procedures and regimens (including alternative therapy), and medical assistive devices and health information technologies. Projects may involve primary data collection or secondary analysis of existing datasets.

### **Clinical Hematology and Transfusion Medicine Research Career Development Program**

The purpose of this Program is to develop and evaluate multidisciplinary career development programs in non-malignant hematology and transfusion medicine that will equip new investigators with the knowledge and skills to address complex problems in blood diseases and transfusion medicine. Through this Program, the NHLBI will support the early career development of clinical researchers who are expected to become independent investigators and assume academic leadership roles in non-malignant clinical hematology and transfusion medicine. To accomplish this, NHLBI invites institutions with established clinical research infrastructures and expertise in non-malignant clinical hematology and transfusion medicine to submit ap-

plications to establish Clinical Hematology and Transfusion Medicine Research Career Development Programs. Programs supported under this FOA should provide comprehensive, multidisciplinary training in research designs and methodologies, standard and potentially future or innovative approaches to the clinical management of patients with non-malignant hematologic diseases as well as transfusion practices for multiple patient populations, and research opportunities in these clinical settings. Programs should include a core curriculum, didactics, and a short-term research project for each Scholar.

### **Family Drug Court Programs - OJJDP FY 2011**

The U. S. Department of Justice's Office of Juvenile Justice and Delinquency Prevention (OJJDP) will award funding to enhance the capacity of family drug courts. The Family Drug Courts Program builds the capacity of states, state and local courts, units of local government, and federally-recognized Indian tribal governments to either implement new drug courts or enhance pre-existing drug courts for individuals with substance abuse disorders or substance use and co-occurring mental health disorders including histories of trauma, involved with the family dependency court as a result of child abuse, neglect, and other parenting issues. Applicants must provide services to the children of the parents in the program as well as to the parents. This program provides seed money, not long-term support. OJJDP expects successful applicants to develop and implement a sustainability plan during the grant period to continue operation of the family drug court when the grant ends. This program will be authorized by this program is authorized by 42 U.S.C. 3797u, et seq.

### **Optimizing Fidelity of Empirically-Supported Behavioral Treatments for Mental Disorders**

This Funding Opportunity Announcement (FOA) seeks research applications designed to develop and test methods for improving the fidelity, and ultimately the effectiveness, of empirically supported behavioral treatments (ESBTs) implemented by front-line therapists in community practice settings. Because achieving this aim presumes valid and reliable assessment of fidelity, the FOA uses the sequential R21/R33 funding mechanisms to encourage research designed to develop and test (a) methods for assessing theory-derived ESBT fidelity components (R21 phase), and (b) interventions that enhance and maintain the fidelity with which clinicians implement an ESBT in community practice settings (R33 phase).

### **Program Supplement to the Primary and Behavioral Health Care Integration Grants for Health Information Technology (HIT) Adoption in the Context of Integrated Care**

The Substance Abuse and Mental Health Services Admini-

stration (SAMHSA) announces the availability of funds to expand and enhance grant activities funded under the Primary and Behavioral Health Care Integration (PBHCI) grant announcement. The purpose of this one-year supplemental award is to expand the use of interoperable electronic health records to increase the grantees abilities to quickly identify both the behavioral health and primary care needs of their patients. It supports the grantees provision of high quality clinical services that respond to the complete health care needs of their patients. As a part of the Draft National Prevention Strategy, it paves the way for the delivery of prevention services that link primary care and behavioral health needs, and allows the timely tracking of outcomes. The exchange of health information between PBHCI behavioral health providers and physical health providers, and the documenting and tracking of preventive health efforts across both settings, will improve the overall health of patients. This supplement supports the PBHCI program for improving the physical health status of people with serious mental illnesses and substance abuse and co-occurring disorders. It facilitates the integration of primary care services with the care delivered in publicly funded community mental health and other community-based behavioral health settings. HHS expectation is that individuals with serious mental illnesses and substance abuse problems will show improvement in their overall health status through a coordinated approach to prevention and treatment. In the past, the specialty behavioral health system has often operated independently from the broader health system and differed in the type and scope of information technology used. Through this initiative, SAMHSA will work to increase the use of interoperable, certified electronic health record systems so that Americans with behavioral health conditions can benefit from the advantages afforded by the existence of an integrated health record.

#### **Screening, Brief Intervention, and Referral to Treatment with a Trauma Module**

The Substance Abuse and Mental Health Services Administration is accepting grant applications for fiscal year (FY) 2011 that build upon SAMHSA's Screening Brief Intervention and Referral to Treatment (SBIRT) for alcohol and illicit drugs and that test the additive value of integrating a screening and brief intervention module for trauma. The established SBIRT approach for substance use has been successful in identifying and intervening with asymptomatic, risky substance users in primary care. The purpose of the program is to implement SBIRT in primary care settings; and to develop and test new trauma modules for integration into SBIRT. Findings from this program will determine the feasibility of integrating trauma screening and brief intervention with the established SBIRT and the additive value to individuals and primary care providers. This initiative supports SAMHSA's Strategic Initiatives for Trauma and Justice and Prevention of Mental Illness and Substance Abuse.

#### **Beyond HAART: Innovative Therapies to Control HIV-1**

The National Institute of Allergy and Infectious Diseases (NIAID) and the National Institute of Mental Health (NIMH), NIH encourage applications from institutions/organizations to participate in this Funding Opportunity Announcement (FOA), Beyond HAART: Innovative Therapies to Control HIV-1. This initiative will support program project applications to develop therapeutic approaches that could allow HIV-1 infected persons to discontinue current HIV-1 treatments for a sustained period without viral rebound. Approaches of interest include therapeutic vaccines, gene therapies, cell therapies, antibodies, and other targeted interventions. Awardees will perform basic research on the chosen approach, as well as engage in translational activities such as test-of-concept studies in animal models or humans. Research program project applications must be designed as collaborative efforts between academia and the private sector.

#### **Active Living Research: Building Evidence to Prevent Childhood Obesity**

Active Living Research is a national program of the Robert Wood Johnson Foundation (RWJF) that supports research to inform policy and environmental strategies for increasing physical activity among children and adolescents, decreasing their sedentary behaviors and preventing obesity. The program places special emphasis on reaching children and youths ages 3 to 18 who are at highest risk for obesity: Black, Latino, American Indian and Asian/Pacific Islander children, as well as children who live in under-resourced and lower-income communities. This call for proposals will support opportunistic, time-sensitive studies on emerging or anticipated changes in physical activity-related policies or environments.

#### **Systems Biology Approaches in HIV/AIDS and Substance Use**

The purpose of this Funding Opportunity Announcement (FOA) is to encourage systems biology approaches to address critical questions in HIV/AIDS and the potential impact of substance use.

**Deadline: August 17, 2011**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-DA-12-009.html>

#### **Systems Approach to Immunity and Inflammation**

The primary objective of the program is to use a systems biology approach to develop a comprehensive understanding of innate or adaptive immune responses to infection with and/or vaccination against one or more pathogenic microbes, with a focus on NIAID Emerging/Re-emerging Pathogens of concern to human health. The initiative will support quantitative analyses that will identify and measure dynamic networks regulating immune responses. The basis of the research program will be genome wide screens of mutant mice for identification of key regulatory immune response genes. The studies will be complemented by detailed genomics, proteomics, computational biology and bioinformatics approaches that focus on transcriptional regulation and signaling mechanisms. Investigators will analyze a subset of the newly discovered

murine immune regulatory genes in human correlation studies.

#### **A-T Children's Project**

The A-T Children's Project strives to assist respected scientists in developing a clearer understanding of ataxia-telangiectasia. The Foundation is determined to find a timely cure, or life-improving treatments, for this serious disease. Proposals from junior investigators, from scientists in related disciplines, and from individuals with innovative new ideas for A-T research are particularly encouraged, as are laboratories and teams working together from industry as well as teaching universities. The Project provides competitive grant awards for basic and translational research grants related to A-T. Applicants please note that the A-T Children's Project is currently focusing its funding efforts on grant proposals that are relevant to a therapeutic intervention for A-T and/or proposals that facilitate translational or clinical research for this disease. As such, these types of applications will be given priority funding. A Letter of Intent is not required. However, prior to submission of a full-length proposal, applicants seeking Scientific Advisory Board input may submit a Letter of Intent directly to the A-TCP Science Coordinator at [cynthia@atcp.org](mailto:cynthia@atcp.org). This letter (not to exceed two pages) should include a brief abstract describing the proposed research, specific aims and an estimated budget. Submission deadlines for grant applications are September 1 and March 1.

#### **Research to Aid Persons with Disabilities**

The Research to Aid Persons with Disabilities (RAPD) program supports research that will lead to the development of new technologies, devices, or software for persons with disabilities. Research may be supported that is directed to the characterization, restoration, and/or substitution of human functional ability or cognition, or to the interaction of persons with disabilities and their environment. Areas of particular recent interest are disability-related research in neuroscience/neuroengineering and rehabilitation robotics. Emphasis is placed on significant advancement of fundamental engineering and scientific knowledge and not on incremental improvements. Proposals should advance dis-

covery or innovation beyond the frontiers of current knowledge in disability-related research.

#### **Department of Defense HIV/AIDS Prevention Program**

This BAA is intended to solicit existing partners and establish new partners to support the development of a DHAPP.org web site. This site will serve as a source for program updates, with both a public side for general information, as well as password protected privacy modules for compartmentalized and specific partner information and access. Capacities of the site should include a file structure to upload and download files, internet and email messaging, as well as database functions to support information gathering and analysis.

#### **Emergency Capital Repair Grant Program**

HUD provides grant funds to make emergency capital repairs to eligible multifamily projects owned by private nonprofit entities that are designated for occupancy by elderly tenants. The capital repair needs must relate to items that present an immediate threat to the health, safety, and quality of life of the tenants. The intent of these grants is to provide one-time assistance for emergency items that cannot be absorbed within the project's operating budget and other project resources, and where the tenants' continued occupancy in the immediate near future is jeopardized by a delay in initiating the proposed cure. Eligibility for emergency capital repair grants under this notice is restricted to: Private nonprofit owners of eligible multifamily-assisted housing developments designated for occupancy by elderly tenants.

#### **Understanding User Needs and Context to Inform Consumer Health Information Technology**

This is a Large Research Project (R01) FOA to express AHRQs interest in funding research projects that will build a knowledge base of individuals personal health information management (PHIM) needs and practices and the design principles related to these activities. The increased interest in and availability of consumer health information technology (IT) applications meant to assist consumers in managing their personal health information has rapidly increased over the past decade. Many other industries have greatly benefited from design principles that take into account user needs and context, which help designers improve the utility of information management tools among a heterogeneous population of users. Individuals are the end users of consumer health IT; however, there is still a lack of basic research around these end users PHIM practices and needs and how these methods are influenced by a multitude of other contextual factors (e.g., care settings, demographics, motivations, user capabilities and limitations, informal caregiving networks, technology sophistication, and access to Internet) that, typically, represent a mixture of facilitators or barriers to adequate PHIM. This FOA looks to bridge the chasm that currently exists between consumer health IT designers and the users themselves, by bolstering basic research to better understand users PHIM practices, needs, and goals as they are intrinsically shaped by an array of contextual factors.

## **HOUSING**

### **Housing Choice Voucher Family Self Sufficiency**

The purpose of the HCV FSS program is to promote the development of local strategies to coordinate the use of assistance under the HCV program with public and private resources to enable participating families to increase earned income and financial literacy, reduce or eliminate the need for welfare assistance, and make progress toward economic independence and self-sufficiency. The FSS program and this FSS NOFA support the Department's strategic goal of utilizing housing as a platform for improving quality of life by helping HUD-assisted renters increase economic security and self-sufficiency. The FSS program provides critical tools that can be used by communities to help families develop new skills that will lead to economic self-sufficiency. As a result of their participation in the FSS program, many families have achieved stable employment. An FSS program coordinator assures that program participants are linked to the supportive services they need to achieve self-sufficiency. In addition to working directly with families, an FSS Program Coordinator is responsible for building partnership with employers and service providers in the community to help participants obtain jobs and services. FSS Program Coordinators must ensure that the services included in contracts of participation of program participants are provided on a regular, ongoing and satisfactory basis, that participants are fulfilling their responsibilities under the contracts and that FSS escrow accounts are established and properly maintained for eligible families.

### **Public and Indian Housing Family Self-Sufficiency Program under ROSS**

The purpose of the Public Housing FSS (PH FSS) program is to promote the development of local strategies to coordinate the use of assistance under the Public Housing program with public and private resources, enable participating families to increase earned income and financial literacy, reduce or eliminate the need for welfare assistance, and make progress toward achieving economic independence and housing self-sufficiency. The FSS program and this FSS NOFA support the Department's strategic goals of helping HUD-assisted renters make progress toward housing self-sufficiency. The FSS program provides critical tools that can be used by communities to support welfare reform and help families develop new skills that will lead to economic self-sufficiency. As a result of their participation in the FSS program, many families have achieved stable, well-paid employment, which has made it possible for them to become homeowners or move to other non-assisted housing. An FSS program coordinator assures that program participants are linked to the supportive services they need to achieve self-sufficiency. In addition to working directly with families, an FSS Program Coordinator is

responsible for building partnership with employers and services providers in the community to help participants obtain jobs and services. PLEASE NOTE: This program is ONLY to provide is ONLY to serve residents of CONVENTIONAL PUBLIC HOUSING.

### **Healthy Homes Production Program**

The Healthy Homes Production Program is part of HUD's overall Healthy Homes Initiative launched in 1999. The program takes a comprehensive approach to addressing multiple childhood diseases and injuries in the home by focusing on housing-related hazards in a coordinated fashion, rather than addressing a single hazard at a time. The program builds upon HUD's successful Lead Hazard Control programs to expand the Department's efforts to address a variety of high-priority environmental health and safety hazards. Because FY2011 full-year funding has not been appropriated for this program, the availability of any such funding for these programs is contingent upon future Congressional action.

### **Section 811 Supportive Housing for Persons with Disabilities**

This program provides funding for the development and operation of supportive housing for very low-income persons with disabilities who are at least 18 years old. If you receive funding through this program, you must assure that supportive services are identified and available. HUD provides capital advances and contracts for project rental assistance in accordance with 24 CFR part 891. Refer to Section IV. E .3 in the NOFA for additional information on calculating the capital advance amount. Capital advances may be used for the construction or rehabilitation of a structure or acquisition of a structure with or without rehabilitation, to be developed into a variety of housing options described in Section III.C below. Capital advance funds bear no interest and are based on development cost limits in Section IV.E.3 identified in the NOFA. Repayment of the capital advance

is not required as long as the housing remains available for occupancy by very low-income persons with disabilities for at least 40 years. PRAC funds are used to cover the difference between the tenants' contributions toward rent and the HUD-approved cost to operate the project.

### **Resident Opportunity and Self Sufficiency Service Coordinators Program**

The purpose of the Public and Indian Housing Resident Opportunity and Self Sufficiency (ROSS) Service Coordinators program is to provide grants to public housing agencies (PHAs), tribes/tribally designated housing entities (TDHEs), Resident Associations (RAs), and nonprofit organizations (including grassroots, faith-based and other community-based organizations) for the provision of a Service Coordinator to coordinate supportive services and other activities designed to help Public and Indian housing residents attain economic and housing self-sufficiency. This program works to promote the development of local strategies to coordinate the use of assistance under the Public Housing program with public and private resources, for supportive services and resident empowerment activities. These services should enable participating families to increase earned income, reduce or eliminate the need for welfare assistance, make progress toward achieving economic independence and housing self-sufficiency or, in the case of elderly or disabled residents, help improve living conditions and enable residents to age-in-place. A Service Coordinator ensures that program participants are linked to the supportive services they need to achieve self-sufficiency or remain independent. Funds in this program are not allowed to be used for the direct provision of these services. This program is similar to the Public Housing Family Self Sufficiency program (PH FSS); however, the PH FSS program is open only to PHAs and tribes/TDHEs, has a requirement of an escrow account for its participants and provides one-year funding. The ROSS SC program is open to non-profit and Resident Association applicants, provides three-year funding, includes administrative expenses and training as eligible uses of the funds and requires a 25% match by statute. A PHA or tribe may receive grants in both programs. PLEASE NOTE: This program is ONLY to provide SERVICE COORDINATION and is ONLY to serve residents of CONVENTIONAL PUBLIC HOUSING.

### **Notice of HUD's FY2011 NOFA Policy Requirements and General Section to HUD's FY2011 NOFAs for Discretionary Programs**

This notice describes HUD's FY2011 policy priorities and requirements applicable to all of HUD's NOFAs published in FY2011. The General Section provides overall guidance and direction to applicants regarding HUD's Policy Priorities and their relationship to HUD's Strategic Goals as stated in the Department's Strategic Plan for FY2010-2015. For detailed information on HUD's Strategic Plan for FY2010-2015 visit

HUD's website. HUD's Strategic Plan for FY2010-2015 and HUD's Policy Priorities set forth a roadmap of actions to help transform communities through the implementation of HUD's programs. Each program NOFA will contain specific activities, requirements, policy priorities, and outcomes or measures of success that will be used to evaluate submitted applications. In each case, the outcomes described in the program NOFA will support the measures of success described in HUD's Strategic Plan. Each program NOFA will also describe additional procedures and requirements that apply to the individual program NOFAs, including a description of the eligible applicants, eligible activities, threshold requirements, factors for award, variations from the General Section requirements, and any additional program requirements or limitations. To adequately address all of the application requirements for any program for which you intend to apply, please carefully read and respond to both this General Section and the individual program NOFAs.

### **FY 2012 Funding Opportunity Announcement for Reception and Placement Program**

The purpose of the R&P Program is to promote the suc-

cessful reception and placement of all persons who are admitted to the United States under the U.S. Refugee Admissions Program. For the purpose of this announcement, refugees defined as a person admitted to the United States under section 207(c) of the INA, as amended, or a person to whom eligibility for the resettlement assistance available to individuals admitted under section 207 (c) has been extended by statute. To accomplish this goal, the Immigration and Nationality Act (INA) recognizes the desirability for public or private non-profit organizations to provide R&P services and to assist refugees to achieve economic self-sufficiency as quickly as possible. The program goals and objectives set forth in this announcement have been established in accordance with these statutory provisions. The Bureau partners with and provides partial financial support to non-governmental organizations (NGOs) to carry out the R&P Program. Participating organizations are expected to combine the Bureau's financial assistance with existing and projected private resources for the provision of R&P services for refugees admitted to the United States during the period October 1, 2011 through September 30, 2012. The Bureau intends to award Cooperative Agreements (CA) for FY 2012 to well-qualified non-profit organizations able to offer a range of services in multiple locations across the United States. This will include applicants that have demonstrated satisfactory performance under previous agreements with the Bureau and/or applicants that meet the selection criteria described below and have demonstrated the capacity to provide required services. Applicants should understand that participation in the FY 2011 R&P Program is neither a pre-condition for nor a guarantee of continued participation in FY 2012. In order to be considered for participation in the program, applicants must: A. Be well-established social service providers with demonstrated case management expertise and experience managing a network of affiliates that provide reception and placement or similar services to refugees or other migrant populations in the United States; B. Have been in operation for at least three full years in 501(c)(3) non-profit status; C. Document the availability of private financial resources to contribute to the program; and D. Operate multiple locations across the U.S.

#### **Community-Based Violence Prevention Demonstration Program - OJJDP FY 2011**

A growing number of communities have adopted multi-strategy, multi-disciplinary approaches to reduce the violence that has adversely affected youth, families, and neighborhoods across America. This program provides funding for localities to support federal, state, and local partnerships to replicate proven multi-disciplinary, community-based strategies to reduce violence. This program will be authorized by an Act appropriating funds for the Department of Justice. Applicants are limited to states (including territories) and units of local government (including federally recognized tribal governments, as determined by the Secretary of the Interior). OJJDP welcomes joint applications from two or more eligible applicants; however, one applicant must be clearly indicated

as the primary applicant (for correspondence, award, and management purposes) and the others indicated as co-applicants. Applicants must demonstrate a significant crime and violence problem affecting youth (specifically, high levels of shootings and killings over an extended period of time) to be eligible for this program. OJJDP will give preference to applicants that have high levels of support within local government. Specifically, successful applicants will be those that have signed letters of support from, at a minimum, a mayor or chief executive officer, chief of police, and the local school superintendent and have proven how the implementation of their comprehensive, community-based violence prevention strategy fits into the local government's youth violence prevention plan(s).

**Deadline: May 23, 2011**

**Maximum Grant: \$2,200,000**

#### **COPS Secure Our Schools Program - FY 2011**

The COPS Office is pleased to announce the availability of funding under the COPS Secure Our Schools (SOS) 2011 grant program. Approximately \$13 million will be available under SOS to provide funding to law enforcement agencies to assist with the development of school safety resources and provide improved security at schools and on school grounds. Specifically, this program will fund up to 50% of the total cost to implement one or more of the following options: placement and use of metal detectors, locks, lighting, and other deterrent measures; security assessments; anti-violence initiatives; security training of personnel and students; coordination with local law enforcement; and/or any other measure that may provide a significant improvement in security. Applicants will be required to demonstrate a comprehensive approach to preventing school violence.

**Deadline: May 25, 2011, priority consideration – Second deadline: June 8, 2011**

**Grant Link:** <http://www.cops.usdoj.gov/Default.asp?Item=2368>

#### **OVW Fiscal Year 2011 Technical Assistance Program**

OVW's Technical Assistance Program provides OVW grantees with the training, expertise, and problem-solving strategies they need to meet the challenges of addressing sexual assault, domestic violence, dating violence, and stalking. OVW's technical assistance projects have offered educational opportunities, conferences, peer-to-peer consultations, site visits, and tailored assistance that has allowed OVW grantees and others to learn from experts and one another about how to effectively respond to crimes of violence against women. In shaping its technical assistance program, OVW has actively solicited input from its grantees to ensure that efforts are responsive to the needs and concerns of local communities. The primary purpose of the OVW TA Program is to provide direct assistance to grantees and subgrantees to enhance the success of local projects they are implementing with VAWA grant funds. In addition, OVW is focused on building the capacity of criminal justice and victim services organizations to respond effectively to sexual assault, domestic violence, dating violence, and stalking and to foster partnerships among organizations that have not traditionally worked together to address violence against women. LOI due April 28, 2011.

**Deadline: May 25, 2011**

**Maximum Grant: \$900,000**

#### **Grants to State Sexual Assault and Domestic Violence Coalitions and Sexual Assault Services to State Coalitions Program OVW Fiscal Year 2011**

Since the enactment of the Violence Against Women Act (VAWA), groundbreaking work has taken place in communities as victim advocates, police officers, prosecutors, and judges forge relationships with each other to address violence against women. VAWA has fundamentally changed the way that criminal justice agencies, victim advocacy organizations, and service providers within local communities address victim safety and offender accountability. Grants to State Sexual Assault and Domestic Violence Coalitions Program (State Coalitions Program) State coalitions have played a critical role in advancing the goals of VAWA, serving as a collective voice to end violence against women through collaboration with Federal, State, and local organizations, including faith-based and community organizations. Statewide sexual assault coalitions provide direct support to member rape crisis centers through funding, training and technical assistance, public awareness activities, and public policy advocacy (e.g., state coalitions might work with law enforcement, prosecution, faith-based and community organizations to enhance their responses to victims of sexual assault). Statewide domestic violence coalitions provide comparable support to member battered women's shelters and other domestic violence victim service providers. This grant program supports the enhancement of coalitions by funding specific projects. For approximately one-third of States and Territories, these support services are provided through a single or dual sexual assault and domestic violence coalition. For the small number of States where more than one State sexual assault and/or domestic violence coalition exist, only those who meet statutory eligibility requirements will be eligible.

#### **COPS Child Sexual Predator Program - FY 2011**

The COPS Office is pleased to announce the availability of funding under the COPS Child Sexual Predator Program (CSPP) 2011 grant program. In FY 2011, approximately \$9 million will be available under CSPP for law enforcement agencies to establish and/or enhance strategies to locate, arrest, and prosecute child sexual predators and exploiters, as well as enforce state sex offender registration laws.

**Deadline: June 3, 2011**

**Grant Link:** <http://www.cops.usdoj.gov/Default.asp?Item=2442>

#### **National Victimization Statistical Support Program**

The Bureau of Justice Statistics (BJS) seeks an agent to implement the National Victimization Statistical Support Program (NVSSP) project. The NVSSP is designed to provide scientific and technical support for statistical and methodological research, statistical analyses, documentation, and dissemination in support of BJS's efforts related to the redesign of its National Criminal Victimization Survey (NCVS); enhance BJS's statistical reporting program from the NCVS and other federal data on criminal victimization; and supports BJS efforts to use the NCVS to inform its future decisions about the design and content of its victimization statistics program. Through this project, BJS seeks to expand its capacity to conduct analyses of the NCVS and other criminal victimization data and create technical documentation related to the survey's collection process as a means of increasing the breadth of substantive issues that it addresses with the NCVS, both in the short-run and longer-term.

**Deadline: June 3, 2011**

**Maximum Grant: \$2,500,000**

**Grant Link:** <http://www.ojjdp.gov/grants/solicitations/FY2011/JuvDrugTA.pdf>

#### **Mentoring for Child Victims of Commercial Sexual Exploitation Initiative - OJJDP FY 11**

This initiative supports efforts of community service organizations to develop or enhance their mentoring capacity,

and increase the availability of direct services for child victims (younger than age 18) of commercial sexual exploitation (CSE) or domestic sex trafficking (DST), including children who are U.S. citizens or legal permanent residents. OJJDP expects successful applicants to integrate promising practices and proven principles into mentoring service models; develop strategies to recruit, train, support, and maintain mentors; and provide a comprehensive array of support services to empower girls and boys to move past their experiences with victimization to develop their full potential. This program will be authorized by the act appropriating funds for the Department of Justice. Applicants are limited to states (including territories), units of local government (including federally-recognized tribal governments, as determined by the Secretary of the Interior), nonprofit and for-profit organizations (including tribal nonprofit and for-profit organizations), and institutions of higher education (including tribal institutions of higher education). For-profit organizations must agree to forgo any profit or management fee.

#### **Correctional Systems and Correctional Alternatives on Tribal Lands Training and Technical Assistance Program - BJA FY 11**

The Correctional Systems and Correctional Alternatives on Tribal Lands (CSCATL) Training and Technical Assistance (TTA) Program is designed to assist tribes with the 1) identification of justice system needs and the planning process for renovating and constructing correctional facilities, multi-purpose justice centers, or correctional alternative facilities,

and 2) development, implementation, or enhancement of community-based correctional alternatives to address the incarceration and rehabilitation of juvenile and adult offenders subject to tribal jurisdiction. Community-based correctional alternatives refers to initiatives or programs which address offender needs outside of an institutional setting. Community-based correctional alternatives may include diversion programs, substance abuse and mental health treatment programs, holdover/sobriety centers, and problem-solving strategies. Applicants are limited to tribal and non-tribal for-profit (commercial) organizations, non-profit organizations, institutions of higher learning, and consortiums with demonstrated experience in working effectively with tribal representatives to address institutional correctional needs through planning, renovation, and construction of correctional facilities, multi-purpose justice centers, or correctional alternative facilities and/or developing, implementing, and enhancing community-based correctional alternatives to serve local and regional needs. For-profit organizations must agree to waive any profit or fees for services.

#### **Honest Opportunity Probation with Enforcement (HOPE) Demonstration Field Experiment - BJA FY 11**

BJA and the National Institute of Justice (NIJ) are supporting this multisite Demonstration Field Experiment (DFE) in an effort to enhance public safety and to improve the outcomes of probationers. This DFE will combine a multisite demonstration of the Hawaii HOPE model with a rigorous experimental evaluation in an applied setting. This DFE will consist of a randomized controlled trial (RCT), in which the costs associated with program implementation will be funded by BJA, and costs associated with the evaluation will be funded by NIJ. This solicitation is being developed as part of the Smart Probation initiative, and may be funded under the Second Chance Act of 2007 (Public Law 110-199, Sec 245). The Smart Probation initiative is intended to: (a) improve supervision strategies that will reduce recidivism; (b) promote and increase collaboration among agencies and officials who work in probation and related fields; and (c) develop and implement strategies to improve the outcomes of high-risk probationers that can be used throughout the nation.

**Deadline: June 28, 2011**

**Maximum Grant: \$850,000**

**Grant Link:** <http://www.ojp.usdoj.gov/BJA/grant/11HOPEsol.pdf>

#### **Grants to Tribes, Tribal Organizations and Migrant Programs for Community-Based Child Abuse Prevention Programs**

The primary purpose of this funding opportunity announcement is to provide financial support to selected Tribes, Tribal Organizations, and Migrant Programs for child abuse prevention programs and activities that are consistent with the goals outlined by Title II of Child Abuse Prevention and Treatment Act. This legislation specifies that one percent of the available funding from Title II will be reserved to fund Tribes, Tribal Organizations and Migrant Programs. The goal of the programs and activities supported by these funds is to prevent the occurrence or recurrence of abuse

or neglect within the Tribal and Migrant populations. The funds must support more effective and comprehensive child abuse prevention activities and family support services, including an emphasis on strengthening family life and reaching out to include fathers, that will enhance the lives and ensure the safety and well-being of Migrant and Native American children and their families. Some examples of programs that may be funded include, but are not limited to, voluntary home visiting, respite care, parenting education, mutual support, family resource centers, marriage education, and other family support services. Applicants are strongly encouraged to implement evidence-based and evidence-informed programs and practices. The funds must also be used to support an evaluation of the programs and services funded by the grant. Finally, programs funded should develop stronger linkages with the Community-based Child Abuse Prevention Program (CBCAP) State Lead Agency funded under Title II of CAPTA.

#### **Evaluation of the Honest Opportunity Probation With Enforcement Demonstration Field Experiment (HOPE DFE)**

As part of a collaborative effort with the Bureau of Justice Assistance (BJA) to implement and rigorously test important criminal justice interventions and programs, NIJ seeks competitive proposals for a single award that will support a multisite randomized controlled trial (RCT) program evaluation of the HOPE DFE. Jurisdictions across the United States are seeking effective ways to maintain public safety by holding offenders accountable while at the same time reducing costs of imprisonment. A recent NIJ-funded evaluation of the Hawaii Opportunity Probation With Enforcement (HOPE) program showed that the program has great promise for reducing offending and ensuring probationer compliance by combining random drug tests with swift and certain sanctions for probation violations. Based on these positive findings, BJA will fund the expansion of the original HOPE program model implemented in Hawaii to four other sites. Every effort will be made to replicate the original program as closely as possible in the new sites. The demonstration field experiment (DFE) will examine the HOPE program's processes, outcomes, and cost effectiveness through a multi-site study conducted for the explicit purpose of generating evidence about this probation program.

#### **SBIR E-learning for HAZMAT and Emergency Response**

This funding opportunity announcement (FOA) encourages Small Business Innovation Research (SBIR) grant applications from small business concerns (SBCs) that propose to further the development of Advanced Technology Training (ATT) Products for the health and safety training of hazardous materials (HAZMAT) workers, emergency responders, and skilled support personnel. These products would complement the goals and objectives of the Worker Education and Training Program (WETP). The major objective of the NIEHS/WETP is to prevent work related harm by assisting in the training of workers in how best to protect themselves and their communities from exposure to hazardous materials.

There is a need to ensure that learning and training technologies are further developed, field tested and applied to real world situations. It is the intent of this FOA to support the development of emerging technologies to improve worker preparedness through training and education enhancements and methodologies, and to support e-collaboration, e-teaching, and e-learning in safety and health training for workers engaged in hazardous materials response. Funding for this initiative comes directly from NIEHS Worker Education and Training Branch SBIR funds.
